

August 15, 1994

To Whom It May Concern:

It is my pleasure to recommend Judie Card to you as a prospective employee. Judie has worked as a waitress for the past five years at the River Inn Restaurant, Guerneville California. She worked the evening shift (4pm-11:30pm) five nights a week.

The River Inn Restaurant has been in my family for the past 48 seasons (late April - mid October). We serve breakfast and lunch and have an extensive dinner menu featuring fresh fish, beef, casseroles, poultry, and pasta.

Judie always seemed to bring a great attitude to work. A long time chef of ours once characterized her personality as "effervescent." Judie has always been very professional in her dress, work habits, and relations with customers and co-workers.

Judie's intelligence and assertiveness are her winning traits. She is not shy. She will ask questions and learn quickly. Judie knew our menu well. She learned how each dish was prepared and could recommend and explain the different menu items to appreciative customers. She quickly became a favorite waitress of our regular diners.

In terms of reliability, Judie was solid. She'd get her schedule in April and rarely stray from it. Two days off mid-week and she was there the rest of the time including hectic summer holiday weekends. Also, I can't remember her ever calling in sick.

Above all, Judie has a good business sense from her years running a pizza restaurant before her employment with the River Inn. She knows what owners and managers want and appreciate in a good employee. She will be a great worker for you and an asset to your business.

Sincerely,

Chris J. Ambrosini
